Theragen to Present “Patient Insights & Recovery Metrics – Striving To Improve Fusion Outcomes and Patient Care” Presentation at 20th Annual State of Spine Surgery Think Tank 2025

*Company’s Key Leadership Attending Conference,
Including New Vice President of Sales*

JACKSONVILLE, Fla., June 11, 2025 - Theragen Inc., a medical technology company and provider of the ActaStim® Bone Growth Stimulator System, today announced [J. Chris McAuliffe, President and CEO of Theragen](#) will present a session on, Patient Insights & Recovery Metrics – Striving To Improve Fusion Outcomes and Patient Care, at the upcoming 20th Annual State of Spine Surgery Think Tank 2025 in Jose del Cabo, Mexico on June 25-28, 2025.

Key leadership from the Theragen team, including the company’s new Vice President of Sales, Mark Wojtowicz, will also be available to discuss ActaStim-S®, the first significant advancement in spinal fusion bone growth stimulator technology in nearly 20 years. ActaStim is the only system that combines clinically proven therapy, continuous wearability, and actionable daily patient insights to better support successful fusion and patient recovery via its smartphone app, ActaStim-Sync®.

“I am excited to collaborate with our team members at Theragen and spine surgeons throughout the country who share a commitment to innovation and care in the bone growth stimulation industry,” said Mr. Wojtowicz. “As a leader in the medical device industry for nearly 30 years, my focus remains on finding innovative therapeutic solutions, such as ActaStim, to help improve patient care and support during recovery.”

Over the course of Mr. Wojtowicz’s career, he has built and led both small and large sales teams while launching innovative products that challenge the status quo, drive market leadership, and ultimately improve patient lives. His experience spans across key roles in commercial organizations, where he has fostered impactful collaboration across teams, helping to shape team culture and build sustainable growth.

According to the State of Spine Surgery Think Tank event organizers, the program is designed to encourage engaging discussions versus traditional lectures. In addition, the conference is expected to focus on current and practical topics. Leaders from various sectors of healthcare including surgeons, medical device companies and other organizations are expected to attend.

About Theragen:

Theragen, Inc. is a leader in the development and manufacture of non-invasive, electrical stimulation DME products that deliver therapeutic energy to improve fusion success and empower patients to play an active role in their recovery. The company is committed to continuous innovation and expanding our reach to help improve outcomes for more patients. To learn more, please visit theragen.com.

About ActaStim® Bone Growth Stimulator System:

ActaStim uses safe, effective, FDA-approved stimulation technology that's been prescribed clinically for over 20 years to improve spinal fusion success and help patients get back to the activities they enjoy.¹
